

Hello, I'm Kémuel

Hi there, my name is Kémuel El-Nathan Nadal, and I'm a Multimedia Designer specializing in brand, motion, and creative design, with 10 years of experience in a design agency. I believe that creativity is the key to solving new problems, especially when it comes to building a strong brand. I have a passion for minimalist design and also love photography. Throughout my career, I have always strived to ensure that my passion and enthusiasm for my work shine through. However, I have found that it is through collaboration with a team that I have achieved my greatest potential.
